ULTRASON X

ULTRASONIC BIRD DETERRENT SPEAKERS WITH SEPARATE CONTROL BOX

The Ultrason X is the world's first ultrasonic repeller specifically designed for year-round use in semi-enclosed areas and outdoors. The unit operates by creating ultrasonic sound waves that are above the range of most humans' hearing, effectively deterring birds while maintaining a comfortable environment for people. The Ultrason X is fully programmable and weather resistant. The convenient and flexible coverage makes it perfect for small residential spaces like balconies or patios and large commercial spaces like parking lots or retail stores.

Pests: birds (pigeons, sparrows, starlings, crows, blackbirds, grackles, seagulls, swallows), bats, rodents
Applications: Gas stations, parking lots, hotels, restaurants, balconies, patios, manufacturing or warehouse facilities, airports
