

# Hikvision DS-K4H255-U

· Specification summary

|                                 |                                                                                                                                                      |
|---------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Device class</b>             | Magnetic lock bracket                                                                                                                                |
| <b>Named lock reference</b>     | The cover names DS-K4H255S. This is a compatibility reference, not confirmation that a lock is included or that other lock models fit.               |
| <b>Door application</b>         | Lower-edge frameless glass door. Confirm the actual door and installation arrangement rather than assuming an upper-edge or framed-door application. |
| <b>Door-thickness reference</b> | 9-12 mm is listed for the lower-edge frameless-glass door application. Confirm the measured door and fitting arrangement.                            |
| <b>Dimensions</b>               | 180 mm × 24.5 mm × 38.8 mm (7.1" × 1.0" × 1.5")                                                                                                      |
| <b>Weight</b>                   | 0.2kg (0.4 lb)                                                                                                                                       |
| <b>Material</b>                 | High strength aluminum alloy surface sandblasting oxidation                                                                                          |
| <b>Door type</b>                | Lower edge frameless glass door (door thickness: 9 to 12 mm)                                                                                         |
| <b>Suitable Door</b>            | Lower edge frameless glass door(door thickness 9~12mm)                                                                                               |
| <b>Bracket dimensions</b>       | 180 x 24.5 x 38.8 mm is listed and cross-checked with the drawing. These are overall bracket dimensions, not the individual mounting-hole positions. |
| <b>Bracket weight</b>           | 0.2 kg is listed for the bracket. Do not transfer the weight of a complete magnetic lock or packaged kit.                                            |
| <b>Material and finish</b>      | The source describes high-strength aluminium alloy with a sandblasted, oxidised surface. No additional corrosion or fire rating is established.      |

Specifications are summarised from the manufacturer's published information (checked 2026-10-20). They describe the cited version only. Confirm the exact model, suffix and supplied revision before ordering. ISD confirms supply, price, availability and warranty separately.
