

Yeastar SO Module

· Specification summary

Device class	FXS / FXO PBX module
Port functions	1 FXS port and 1 FXO port; not an S2 two-FXS or O2 two-FXO module.
Termination reference	PSTN line and analog telephone / fax machine reference; check exact line and endpoint electrical requirements.
FXO ring detection	15–50 Hz detection reference; separate from FXS ringing output.
FXS ring frequency	25 Hz ringing-frequency reference; not the FXO detection range.
Fallback reference	The manufacturer lists PSTN failover when system power is down; confirm the required line, endpoint and hardware arrangement.
Echo cancellation reference	Echo cancellation is listed; no numerical performance guarantee is established.
Terminating impedance option	600 Ω option in this document; verify actual line matching.
Legacy expansion-board reference	The S-Series guide lists SO Module among optional EX08 modules for S100/S300; actual hardware and firmware require confirmation.

Specifications are summarised from the manufacturer's published information (checked 2026-10-20). They describe the cited version only. Confirm the exact model, suffix and supplied revision before ordering. ISD confirms supply, price, availability and warranty separately.
