

**DS-QAE0120G1R**  
**20W Analog Cabinet Speaker**

- By using U-brackets, the installation surface angle can be adjusted for convenient installation
- Support horizontal and vertical installation

## ▪ Specification

| Speaker                |                                                                                                                                      |
|------------------------|--------------------------------------------------------------------------------------------------------------------------------------|
| Rated Power            | 70 V: 5 W/10 W/15 W/20 W<br>100 V: 5 W/10 W/15 W/20 W                                                                                |
| Impedance              | 8 Ω                                                                                                                                  |
| Sensitivity(1 m, 1 W)  | 90 dB ± 3dB                                                                                                                          |
| Max. Acoustic Pressure | 103 dBSPL                                                                                                                            |
| Direction              | All directions                                                                                                                       |
| Frequency Response     | 130 Hz to 17.5 kHz                                                                                                                   |
| Speaker Unit           | 5.25" × 1                                                                                                                            |
| Interface              |                                                                                                                                      |
| Audio In               | Fixed pressure in 100 V/Fixed pressure in 70 V/Fixed resistance input 8 Ω × 1                                                        |
| General                |                                                                                                                                      |
| Material               | Main body&Front cover : plastic, bracket: metal                                                                                      |
| Operating Temperature  | -30 °C to 60 °C (-22 °F to 140 °F)                                                                                                   |
| Operating Humidity     | < 90% (No condensation)                                                                                                              |
| Dimension              | 268.4 mm × 180.4 mm × 125.12 mm (10.57" × 7.1" × 4.93")                                                                              |
| Package Dimension      | 340 mm × 306 mm × 180 mm (13.39" × 12.05" × 7.09")                                                                                   |
| Weight                 | Approx. 1.5 kg (3.3 lb.)                                                                                                             |
| Color                  | White                                                                                                                                |
| With Package Weight    | Approx. 2 kg (4.4 lb.)                                                                                                               |
| Packing List           | Device × 1<br>U-shaped bracket × 1<br>Screw pack × 1<br>Installation sticker × 1<br>Regulatory Compliance and Safety Information × 1 |

## ▪ Available Model

DS-QAE0120G1R
