

**DS-QAE0330G1T-V**  
**30W Analog Horn Speaker**

- High sensitivity and high sound, long transmission distance
- Multiple power levels are optional
- IP65

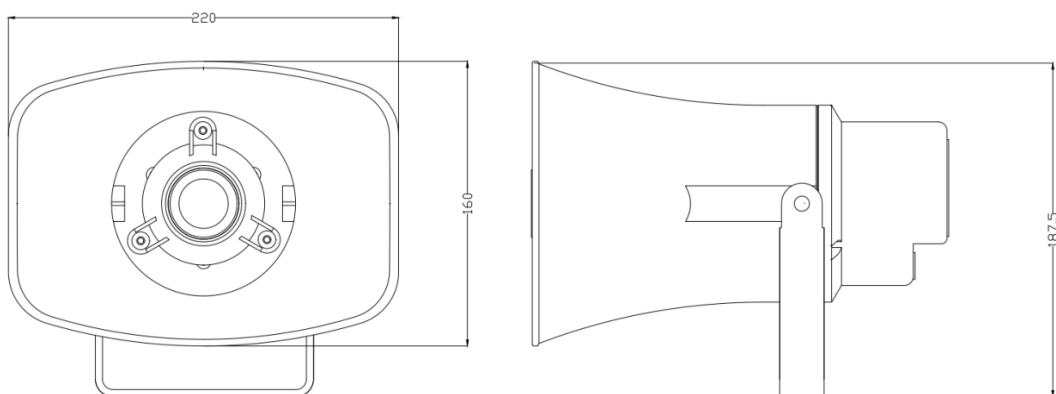

## ▪ Specification

| Speaker                |                                                                      |
|------------------------|----------------------------------------------------------------------|
| Rated Power            | 70V : 2.5W/5W/7.5W/15W/30W ;<br>100V: 5W/10W/15W/30W                 |
| Sensitivity(1 m, 1 W)  | 108dB±3dB                                                            |
| Max. Acoustic Pressure | 120 dB SPL                                                           |
| Frequency Response     | 250 Hz-8 kHz                                                         |
| Speaker Unit           | 34-core 2-inch mid-to-high (dome resin film)                         |
| Coverage Angle         | Horizontal: 75°<br>Vertical: 90°                                     |
| General                |                                                                      |
| Material               | ABS                                                                  |
| Operating Temperature  | -20 °C to 55 °C                                                      |
| Operating Humidity     | < 90% (No condensation)                                              |
| Dimension              | 240mm × 220 mm × 165 mm                                              |
| Weight                 | Approx. 1.48 kg                                                      |
| With Package Weight    | Approx. 2.05 kg                                                      |
| Color                  | White                                                                |
| Packing List           | Instructions × 1<br>Regulatory Compliance and Safety Information × 1 |
| Approval               |                                                                      |
| Protection             | IP65                                                                 |
